A 2-day Training Workshop
for Professionals
April 27 & 28, 2019

RELATIONSHIP ENHANCEMENT®
COUPLES/FAMILY THERAPY

An effective, skill-based, brief
therapy

Relationship Enhancement® Couple/ Family Therapy gives the clear guidelines and practice most of us did not get to create and deepen healthy relationships and heal dysfunctional ones.

For Therapists, it is a superb tool, confirmed by extensive research, for working with individuals, couples, families and organizations.

2019:

- For
- . Workshops for individuals & Couples/relationships
 - . Therapists & Leaders' Trainings
 - . Advanced Training
 - . Group Supervision/Consultation

How to use

RELATIONSHIP

ENHANCEMENT®

an effective,

skill-based,

brief therapy,

**with Couples, Relationships
& Individuals**

Extensive controlled and comparative research confirms clinical experience: Relationship Enhancement® (RE®, developed by Dr Bernard Guerny, Jr.) is an exceptionally powerful method for helping couples and families; it is also transforming for individuals.

With this training, you can use the RE skills to join effectively with your clients, avoid the pitfalls of “resistance” or feeling pulled in the middle by couples or families. You will also be able to model, teach and coach your clients, step-by-step, to use these same skills, which have been shown to be necessary to healthy and growth-enhancing relationships. The positive changes in the relationship, and with each partner, are often quick, profound and lasting because this psycho-educational model puts the necessary tools into the hands of the clients.

Even experienced therapists have been shown by research to get better results with couples after a three-day training workshop in RE. It is an excellent tool in particular for all professionals in the field of relationships (e.g. with primary relationships, families, work-teams), and can be used in various modalities (individuals, couples, groups, organizations).

Sponsored by the Relationship
Enhancement® Institute of New Mexico

IN THIS TRAINING, YOU WILL:

- ◆ **Learn the theoretical background** of RE (including Rogerian, psycho-educational, psychodynamic, behavioral and family systems theories)
- ◆ **Get an overview of the 11 skills** taught to couples
- ◆ **Observe demonstrations and practice** doing:
 - the **intake interview**
 - the early sessions focusing on:
 - . **empathy**
 - . **effective expression**
 - . **discussion / negotiation**
 - . **problem solving / conflict resolution**
 - **crisis intervention techniques**
- ◆ **Learn** how to use RE in sessions with a single **Individual** and in **Intrapsychic** work
- ◆ **Learn** what **pitfalls** to avoid and **how** to avoid them

This Training will use live **demonstrations** and provide many occasions for you to **practice** both the skills and the teaching of the skills in a small group setting. There will be close, positive and supportive supervision.

This Training Workshop is a first step towards **Certification** as a Therapist, Faculty or Supervisor in Relationship Enhancement.

Anyone who has previously attended the RE Training is encouraged to take this opportunity for review and practice. Special arrangements can be made to get supervision counting towards Certification.

What I liked best was the ability to watch an expert demonstrate the technique plus the experience of practicing in small groups. These two aspects seemed to me to be in near perfect balance. The mood of the entire workshop was consistently supportive and positive. This has been one of (if not the) most meaningful workshops I have experienced. The quality of the teaching and the model itself made it remarkable". Workshop participant

Led by: **France Sarradon, MA, LPCC, LMFT,** Clinical Director of the RE® Institute of NM, co-founder and Scientific Director of the Institut Francophone RE®, co-founder and Master Trainer of Listen Up! (RE® in the Workplace). Trained Clinicians will assist her
